The Key to Document Recording

INTEGRATED DOCUMENT RECORDING SOLUTIONS

WHAT WE DO

Since our founding, eRecording Partners Network (ePN) has focused exclusively on overcoming challenges in the document recording industry.

Even with the spread of electronic recording, many in the document recording industry are hampered by small size, specific partnerships and homegrown software solutions, all of which limit their eRecording options. Submitters want to be able to communicate with any county in their region, and jurisdictions want to be able to receive documents from all legitimate submitters.

We make this possible, but go one step further with best-in-breed software integration and highly experienced and helpful staff members.

Imagine documents being submitted in your chosen electronic format, eliminating 5 to 8 minutes of scanning. But that's not the only benefit to eRecording with ePN.

BENEFITS

- **Current Recording Experience**

- **Leader in Open Systems Network**

- **We Work with Your Local Submitters**

- **Interdepartmental Routing Solutions**

- **Custom Integrations for "Home Grown" Systems**

- **We Can Help You Increase eRecording Volume**

SOLUTIONS
